WORKING TEAM

- Rani Mishra, Women In Mining and Natural Resource, Singapore
- Aida Dip, Women in Mining Senegal

CONTEXT AND PURPOSE

Understand the “WHY”

Across global mining sector, the lack of quality granular data limits our understanding of issues facing women in the mining sector and therefore hindering advocacy, assessment of challenges and policy progress, and effective targeting of empowerment action. Addressing the lack of data is not in the interest of industry as it may reflect ineffective policy or implementation deficiencies.

International WIM Alliance 2021-2022 Mandate

Facilitate global co-ordination on key metrics to correctly assess intersectionality and support local, national and regional data initiatives by WIM Organisation

How do we measure our success ?

Opportunity

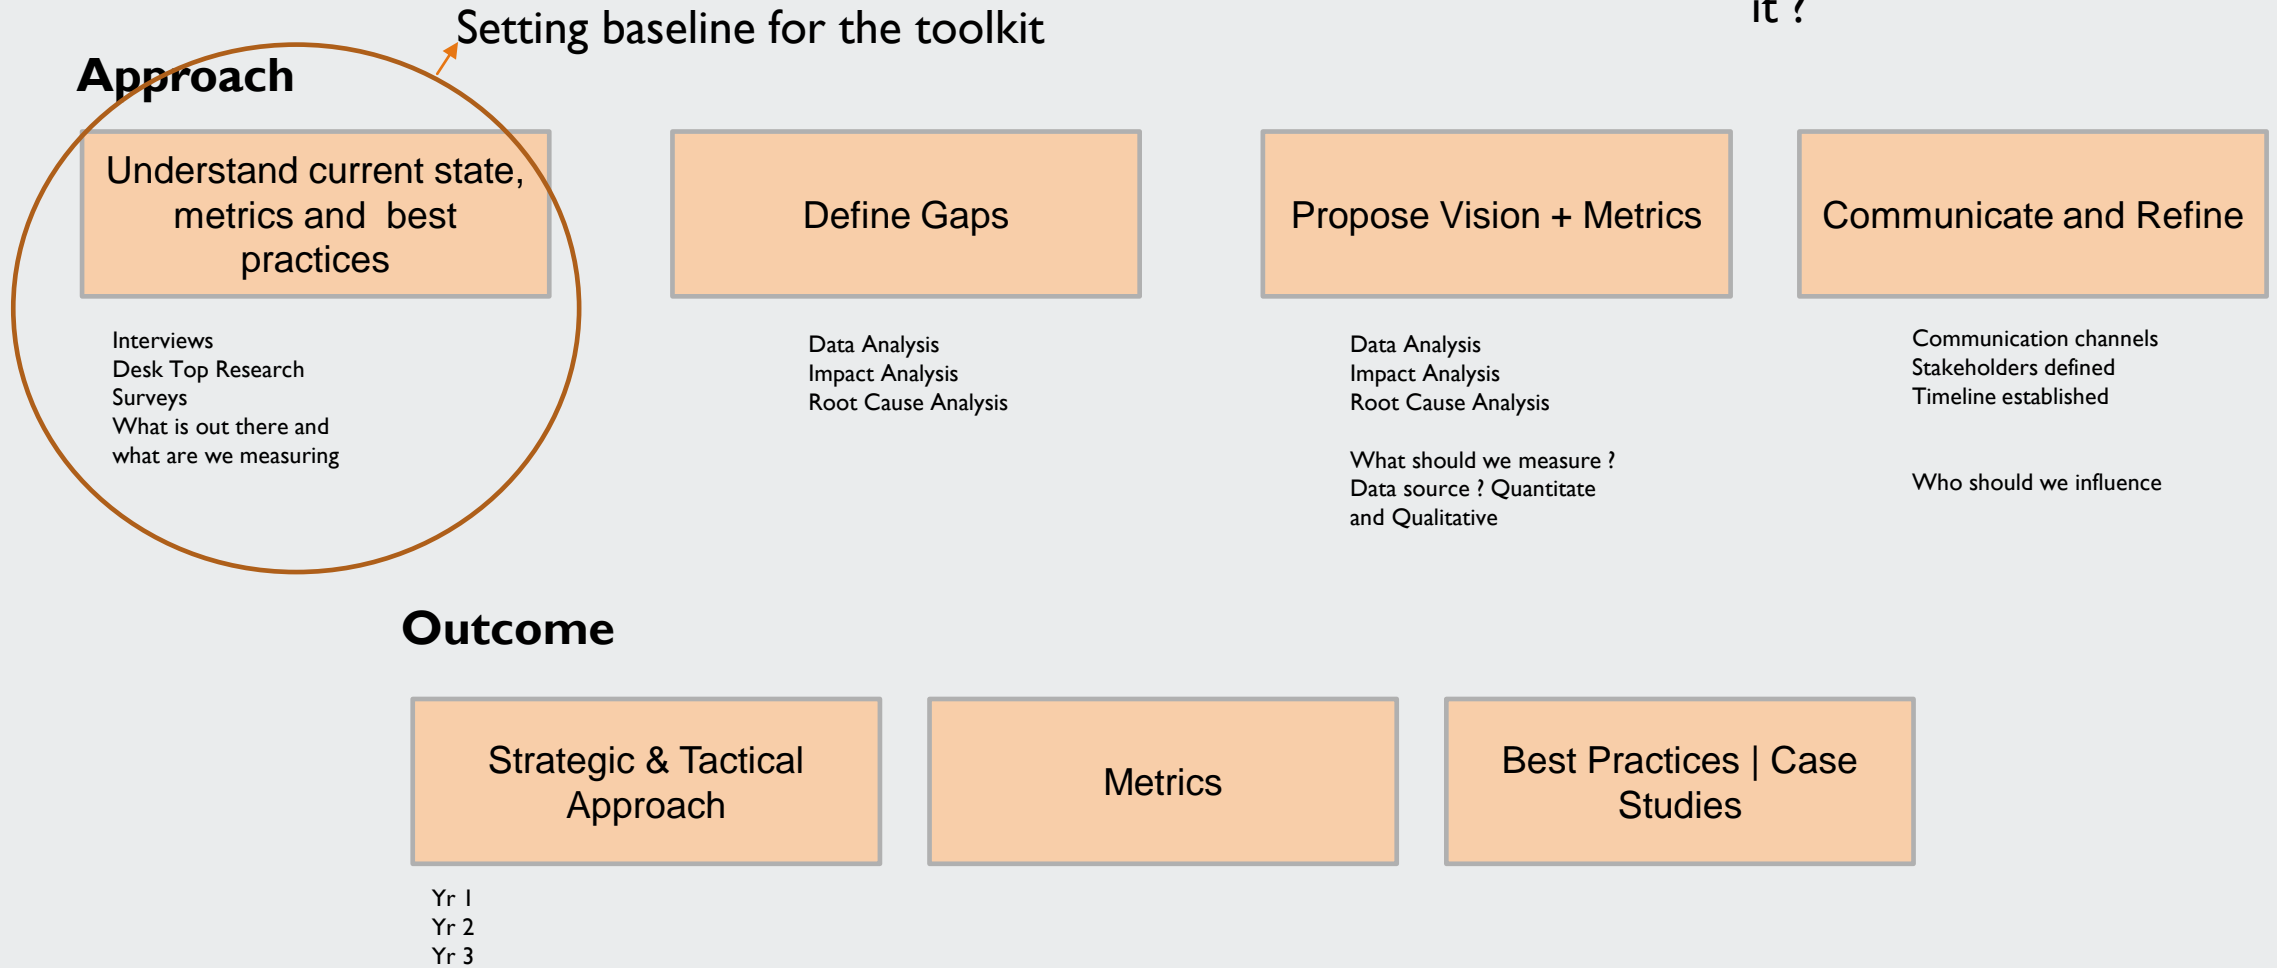

Improve corporate disclosure across functions and professions

Conduct national or regional assessment to compare and complete corporate disclosures

Aggregate, publish and analyse global data to integrate into mining social impact analysis
