## Culture

# Calendar 2026

# IWIM 2026 Culture Calendar

## Introduction

A DEI (Diversity, Equity, and Inclusion) calendar serves several important purposes, primarily by fostering a more inclusive, equitable, and respectful environment in the workplace. Here are a few reasons why having a Culture Calendar can be valuable:

### **1. Raising Awareness of Diverse Holidays and Celebrations**

A Culture Calendar helps individuals and organisations acknowledge and celebrate diverse cultural, religious, and social events. For example, holidays such as Juneteenth, Ramadan, Diwali, or LGBTQ+ Pride Month may not be widely known or celebrated by everyone. A calendar ensures that these significant days are recognised, promoting understanding and empathy among members of diverse groups.

### **2. Promoting Inclusivity**

By highlighting a wide range of cultural observances, a Culture Calendar reinforces the idea that all people, regardless of their background, are seen, heard, and valued. This acknowledgement helps people feel included and respected, contributing to a more welcoming environment.

### **3. Encouraging Respect and Sensitivity**

When individuals are aware of different religious and cultural holidays, they are more likely to show respect for their colleagues' or peers' practices. For example, knowing that someone celebrates Hanukkah or Eid may encourage people to adjust schedules or expectations (such as deadlines or meetings) to accommodate those observances, fostering a more considerate workplace culture.

### **4. Driving Education and Dialogue**

A Culture Calendar can also serve as a tool for education. It encourages people to learn about other cultures, experiences, and perspectives, which can help dismantle biases, misconceptions, and stereotypes. In workplaces, it can spark important conversations about race, gender, disability, and other social issues, helping to promote broader social understanding.

## 5. Supporting Allyship

A Culture Calendar can be a useful guide for individuals who want to act as allies to marginalised groups. It provides information on when to show support—whether through attending events, joining celebrations, or simply learning more about the challenges faced by different communities—creating opportunities for meaningful solidarity.

## 6. Aligning with Organisational Values

Many organisations today embrace diversity, equity, and inclusion as core values. A Culture Calendar is one way to operationalise these values, demonstrating an active commitment to a fair and respectful culture. It shows that the organisation is taking intentional steps to address diversity and equity in meaningful ways.

## 7. Enhancing Employee Engagement

When individuals feel their unique identity and experiences are respected, they are more likely to feel engaged and motivated. A Culture Calendar can contribute to a sense of belonging, which can improve overall morale, retention, and productivity in the workplace.

## 8. Fostering Community Connections

A Culture Calendar can promote connections between different groups, helping to build stronger relationships and support networks. By celebrating and participating in one another's cultural events, people can experience greater unity and understanding, bridging divides that may exist due to race, religion, or other differences.

In summary, having a Culture Calendar is a proactive tool for creating an environment where people of all backgrounds feel respected, valued, and included. It contributes to a culture of learning, allyship, and mutual understanding.

## Acknowledgements

We are grateful to everyone who contributed to the development of **IWIM's Culture Calendar 2026**: the teams who helped curate and verify global commemorations, the collaborators who shared regional insights, and the many partners who support our ongoing efforts to advance diversity, equity, and inclusion across the mining sector worldwide.

Thank you to our partners and community members who continue to support our work and champion inclusive practices in the global mining industry.
